provinces and cities now occupied. Under no name or another they will henceforth be part of the Prussian dominions ruled by the Prussian sword and the rest of the Russians will be enticed or bullied into complete economic and ultimate political enslavement.

"Reparation means recognition," the premier said. "Unless international rights be recognized by insistence on payment for any injury done in defiance of its canons it can never be a reality."

"We regard as vital," said the premier, "the legitimate claims of the Italians for union with those of their own race and tongue."

"We also mean to press that justice be done to the men of Roumanian blood and speech."

"If these conditions were fulfilled, Austria-Hungary would become a power whose strength would conduce to the permanent peace and freedom of Europe instead of being an instrument of the pernicious Prussian military autocracy."

The premier said the first requirements always made by the British and their allies had been complete restoration of the political, territorial and economic independence of Belgium, and such reparation as could be made for the devastation of its towns and provinces.

"We also mean to press that justice be done to the men of Roumanian blood and speech."

AMERICA MUST HURRY

Germany Planning For Aerial Warfare On A Larger Scale.

With the American Army in France, Jan. 4.—Germany's plans for aerial warfare on a larger scale than heretofore, it is indicated in documents taken from enemy prisoners, are founded upon published statements regarding the aerial warfare plans of the United States.

It is indicated that the Germans, believing that America intended putting machines by the tens of thousands into the battle area, immediately enlarged their own plans in the expectation of offsetting the increased enemy forces.

The following were nominated to be United States attorneys: John Robert O'Connor, of Los Angeles, Calif., for southern district of California.

Thomas J. Boynton of Everett, Mass., for Massachusetts; L. H. Kelley of Sutton, W. Va., for southern district of West Virginia.

WOMEN STUDYING

OUR GOVERNMENT

Suffrage Party Held Session At High School Building

A Course of 11 Lessons is Likely To Be Taken Up—An Effort Will Be Made To Have Miss Helen Fraser of England Give An Address In Jamestown—Suffrage Party Will Remain Non-Partisan—Miss Marian Patterson Presided At The Conference.

The interest which women are taking in the study of government was manifest at the meeting of the Women's Suffrage party, held last evening in the Junior study hall of the high school building, presided over by Miss Marian Patterson.

The correspondence course consisting of eleven lessons in citizenship, covers every branch of political machinery and deals with the government of towns and cities, so women interested in community interests will have the privilege of becoming acquainted with affairs of their locality.

Miss Patterson in speaking of the decision made at the recent state suffrage convention to remain non-partisan, said that it was agreed by all officers of state organizations and those representing other organizations, that this was the most effective way to continue the work for the federal amendments, which has become the goal of suffrage organizations everywhere.

A very important legislative program with regard to measures at present before the legislature has been made by the state organization. The war committee in New York city has requested that five hundred stenographers take an examination in New York city which are shorter than the regular civil service examinations, and if passed gives one good position at Washington.

The state suffrage organization has eliminated its assembly of trial campaign features, and the congressional plan will be carried out; James town being in the 43d congressional district comprising Allegheny, Cattaraugus and the second district of Chautauque county.

Miss Patterson in commenting upon the recent national woman's convention held in Washington, D. C., which she was present at, said that Mrs. W. R. Whitehouse had been appointed to head a special mission of the national government, to visit Switzerland to tell the war aims of the United States.
